they supply information."

Answering this reckless misstatement, the company says that each member of the Joint Committee of the City Council on Finance and Light will testify to the fact that this company's representatives repeatedly expressed their willingness to give any expert selected by Council free access to the company's books. Upon his request, Mr. Carlin himself was promptly furnished with all statements which had been given by the company to the above committee.

That the company is convinced of the justice of its cause is evidenced by its expressed willingness to submit the matter to the State Corporation Commission, or to any competent or impartial authority for arbitration in case the City Council is dissatisfied with the proposed increase in rates submitted by the company.

All the company asks is a fair hearing. It submits its case in the confident belief that the City Council of Alexandria as representing the citizens, will accord the company a fair hearing without being swayed in its judgment by reckless, unfair and vituperative statements, or by efforts made by people not residing in Alexandria, to prevent a just increase in rates.

The question of increased rates has been before the City Council for at least a month. All information desired by Council has been gladly furnished by the company. It asks action now, not because it has anything to conceal (as suggested in Mr. Carlin's inaccurate and hectic communication), but because it is losing \$1500.00 per month by delay, and cannot function efficiently on its present income. Misrepresentation and abuse of a public service corporation which has faithfully tried to serve the public honestly and efficiently has gone out of fashion, and will, the company is confident, have no effect upon the City Council or upon those citizens of Alexandria who favor a square deal and are sincerely anxious to see our city grow.

Many organs take part in assimilation of food, and a number are active in eliminating those portions of the food which are not taken into the blood for the upbuilding of the body. Of the eliminative organs, the liver and the kidneys are of major importance, and are most likely to be overworked and become diseased. When such is the case, various troubles of a digestive and eliminative character occur, and such troubles are so frequent and so common that it is absolutely necessary to find some relief. Warner's Safe Kidney and Liver Remedy was compounded over 40 years ago to help equalize the work of both kidneys and liver. How successful it has been is evidenced by its wide-spread sale and its value is attested by an immense number of appreciative users who through these many years have put it to the severest tests with the most satisfactory results.
